APARTMENT LIVING TIP

Stay Warm This Winter

Keep a throw blanket on hand for an extra layer of warmth when your lying on the couch and not exerting much energy.

Cooking at home can heat your house as well. Baking a favorite dish or desert is a great way to warm up on a chilly night.

Don't forget your four legged friends! If you're cold then so are they. Make your dog walking trips a little shorter or put Fido in a nice sweater for an extra layer of warmth to keep out the cold.

Consider an humidifier to raise the level of humidity in the air at night. Humid air feels warmer and can ease dry skin or allergies. Energy efficient models can be purchased for under \$30
